

Explaining Your Brother's or Sister's Bleeding Disorder to Friends

Siblings may be asked about their brother's or sister's bleeding disorder by their friends.

Here is a simple answer that a sibling might use:

My brother or sister _____ (**your brother's/sister's name**) _____ has a bleeding disorder called _____ (**name of the bleeding disorder**) _____ .

This means his or her blood doesn't work right. When my brother or sister gets bumps and bruises, it just takes a little longer for him or her to heal.
